**REQUEST FOR RECONSIDERATION OF REFUSAL TO
ENTER REQUEST FOR CERTIFICATE OF CORRECTION**

Sir:

This paper is being filed in response to the refusal to enter the Request for Certificate of Correction which was mailed to the U.S. Patent and Trademark Office on December 9, 2009.

Please charge any additional requisite fees relating to this paper to Deposit Account No. 501581.

Remarks / Arguments begin on page 2 of this paper.

Remarks / Arguments

The corrections to be made to U.S. 7,474,746 B2, by way of the Request for Certificate of Correction, are strictly editorial in nature. The scope of the claims will not be affected with the entry of the requested corrections.

Considering, for example, the first requested correction:

In column 8, line 42, “switching network” should read --network switch--

there is no antecedent basis for “said facility switching network.” There is, however, antecedent basis at column 8, line 15, for example, for “said facility network switch.” It was an editorial mistake to refer to a particular element in claim 1, at a particular point in claim 1, as a “switching network” rather than as a “network switch.”

The foregoing remarks apply in exactly the same way to the other requests for correction.

Therefore, reconsideration of the refusal to enter the requested changes and entry of the Request for Certificate of Correction are respectfully requested.

Respectfully submitted,

/aln/
